

## Information & Communication Technology

### Fall 2006 Computer Lab Software Images Now Complete

Texas Wesleyan University's Information & Communication Technology department is pleased to announce that the Fall 2006 computer laboratory software images have been completed.

To view lists identifying the software that appears in each computer laboratory, you may:

- Visit a computer laboratory and view the Computer Lab Software Lists posted on the door, or
- Visit the *Computer Labs* page of the ICT website and select a lab for a printable version of the Computer Lab Software Lists (Quick Link: <http://www.txwes.edu/ict/computerlabs.htm>), or
- Select a lab on the interactive lab software map (Quick Link: [http://www.txwes.edu/ict/images/labsoftware\\_map.html](http://www.txwes.edu/ict/images/labsoftware_map.html)).

Thank you all for your time, effort, and assistance in generating these images through the Lab Software Installation Request Process.

For more information about the policy governing the selection and installation of software in computer labs, visit the ICT website at <http://www.txwes.edu/ict/index.htm>. Click *Policies & Procedures* on the left navigation bar. Then select the *Computer Lab Software Installation Policy* from the listed policies.
