

Texas Wesleyan Students Now Have Ram Mail

***Ram Mail is the **ONLY OFFICIAL** source for
ALL university communications!***

Texas Wesleyan University's Information & Communication Technology department has deployed Ram Mail, a secure, fully featured, spam and virus protected E-Mail service for all university students. Students will use Ram Mail for all official university communication. As a Texas Wesleyan student you can activate Ram Mail immediately by:

- First changing your existing password (the same you now use for RamLink and/or WebCt) by clicking on the **RamLink** logo located on the university homepage (<http://www.txwes.edu>). Just follow the directions to change your password. If you do not currently have a user ID and password, click on the **RamLink** logo on the main university web page, choose **Students** on the next page, and follow the directions for obtaining a user ID and password on the third page (refer to **I'm new to RamLink**, **What's my password?** and **Change password**).
- To access your new **Ram Mail** account go to <http://webmail.txwes.edu> or click on the **Ram Mail** icon on the main university web page as above. You will be prompted to logon...use your existing user ID and new password.

Example address: jdoe@mail.txwes.edu

That's all there is to it!
